Hospital Infection Control
1991 Index

Acinetobacter calcoaceticus (A. anitratus)
nosocomial outbreak due to, DEC:173

Aerosols
HIV recovered in those from surgical power tools, APR:44
infection risk of those from surgical power tools, APR:41

AIDS (see also HIV)
Florida dentist with may have infected patients, FEB:24
new trial sought by estate of worker who died of, JUN:82
patients of Delaware dentist with contacted, MAY:60
patients of Florida orthodontist with contacted, JUN:74
patients of Maryland surgeon with contacted, JAN:1
patients of Ohio surgeon with contacted, JUN:74

American Dental Association
challenges CDC estimates of HIV risk to patients, APR:48

American Medical Association
HIV testing, easier informed consent favored by, AUG:112
policy of on HIV-infected providers, FEB:26
outlines policy to test patients for HIV, SEP:128

Centers for Disease Control
calls for panels to review HIV/HBV-infected workers, MAY:53
compiles list of exposure prone procedures, SEP:125
considers new guidelines for HIV-infected workers, JAN:5
encourages testing hospital patients for HIV, NOV:159
estimates of HIV risk to dental patients challenged, APR:48
estimates of HBV transmission to patients, JUN:69
Florida HIV dental case toughest controversy for, JUL:104
guidelines by may push mandatory HIV testing, SEP:121
key provisions of HIV patient testing guidelines, NOV:160
notes from interview with Florida dentist, JUL:88
reports fatal lab infections, APR:46
reports five dental patients infected with HIV: AUG:119
stresses TB control measures after outbreaks, OCT:137
TB guidelines by to prevent outbreaks, OCT:143
unreported findings by in Florida dental case, JUL:86
urged by health unions to make workplace safer, APR:50

Ciprofloxacin
nosocomial pathogens resistant to, MAR:38

Clostridium difficile
infections from reduced by universal precautions, AUG:118
risk factors for infection with, AUG:117

Florida HIV dental case
CDC notes from interview with dentist, JUL:88
CDC suspects five patients infected, AUG:119
dentist may have infected two more patients, FEB:24
dentist troubled about keeping HIV status secret, JUL:94
DNA tests used in to be replicated: MAY:58
first patient in blasts officials, JUL:107
patients, staff doubt infections willful, JUL:101
portrait of dentist in practice, JUL:97
special investigation reveals unreported findings, JUL:86
toughest controversy of AIDS epidemic for CDC, JUL:104

Food and Drug Administration
sets new standard for testing gloves, MAR:35

Gloves
excessive use of undermines universal precautions, MAR:29
inappropriately worn by workers, SEP:131
new FDA standard for testing of, MAR:35
worn for all patient contacts in outbreak, DEC:173

Guest columnist
computers in infection control, JAN:8

Handwashing
poor compliance with observed in study, SEP:131

Hepatitis
CDC calls for panels to review workers with HBV, MAY:53
HBV risk of those from surgical aerosols, APR:41
OSHA requires HBV vaccine, JUN:69
workers with and risk to patients, JUN:69

Human Immunodeficiency Virus (see also AIDS)
AMA policy on providers infected with, FEB:26
CDC calls for panels to review workers with, MAY:53
CDC encourages testing hospital patients for, NOV:159
CDC guidelines by may push mandatory testing for, SEP:121
dental student with removed from practice, JAN:6
federal laws proposed on providers infected with, SEP:126
key provisions of CDC patient testing guidelines, NOV:160
lawsuits citing patient fear of dismissed, AUG:119
patients of infected dental student contacted, JAN:1
patients of practitioners with contacted, JAN:7
physician with fired by hospital, OCT:146
recovered in aerosols from surgical power tools, APR:44
risk of infection from surgical aerosols, APR:41
risk to dental patients debated, APR:48
risk to patients from transfusion, MAR:34
testing for in patients of Delaware dentist, MAY:60

Immunization
encourage in workers, patients for flu, OCT:150

Infection control
compliance with linked to medical training, SEP:130
needlestick information sheet and quiz, JUN:81

strategies for educating employees about, JUN:79
workers lack of compliance with challenges ICPs, AUG:109

Infection control practitioners
challenges faced by from reader survey, AUG:109
computers needed by job duties, JAN:8
formula of one per 250 beds outmoded, JUN:78
most oppose screening workers for HIV/HBV AUG:109
salaries of reported in survey, NOV: supplement
vary in strategies for surgical wound infections, FEB:18

Influenza
vaccination programs for workers, patients, OCT:150

Intensive care units
infection risk factors in neonatal ICU, AUG:117
pulmonary protocol for patients in surgical ICU, SEP:133

Journal Review
(Usually appears monthly. Articles cited in each column are not listed in this index) See JAN:11; FEB:28; MAR:40; APR:52; MAY:67; JUN:84; AUG:120; SEP:135; OCT:151; NOV:163; DEC:175

Legislation
on occupational exposures to bloodborne disease, MAY:64
federal laws proposed on HIV-infected providers, SEP:126
federal, state laws on HIV-infected providers, DEC:165
New York policy on HIV-infected providers, DEC:169

Methicillin-resistant
Staphylococcus aureus
policies barring admission of patients with, MAR:39

MMWR *Update*
latex reactions in surgical patients, SEP:134
pseudo-outbreak of infectious mononucleosis, OCT:150
Mycobacterium haemophilum infections rise, DEC:174
tuberculosis guidelines call for worker screening, MAR:36

Multidose vials
implicated in nosocomial infections, DEC:172

Needlesticks
continue despite in-room sharps boxes, MAR:33
information sheet, employee quiz on, JUN:81
undermine universal precautions, MAR:29

Neisseria meningitidis
CDC reports fatal lab infections with, APR:46

Occupational Safety and Health Administration
delays bloodborne pathogen standard, APR:45
faces Senate deadline to release standard, NOV:153
key provisions of bloodborne standard by, NOV:157

Salmonella enteritidis
gastroenteritis outbreak of traced to eggs, AUG:115

Severity of illness
comparing in patients against infection rates, DEC:170

Sigmoidoscopy
outbreak of diarrhea following due to glutaraldehyde, AUG:116

Special bulletins
CDC guidelines urge HIV testing, AUG.
CDC sparks debate with HIV risk estimates, FEB.
providers oppose mandatory HIV screening, MAR.

Streptococcus pyogenes
action needed after identification of isolates, SEP:134

Surgical wound infections
comparing rates for in Missouri, FEB:21
controversy surrounds reporting of, FEB:13
defining, identifying key to surveillance, FEB:22
discharge surveillance for in outpatient surgery, FEB:19
predominate infection data, FEB:20
post-discharge tracking improves data on, AUG:113
research targeting risk factors for, FEB:23
tracking form for post-discharge patients, AUG:114
strategies for rates, tracking vary, FEB:18

Surveillance
after discharge improves SWI data, AUG:113
defining, identifying SWIs for, FEB:22
in outpatient surgery, FEB:19
reporting data back to staff, SEP:132
tracking form for post-discharge SWI patients, AUG:114

Testing
AMA favors easing informed consent for HIV, AUG:112
AMA outlines policy for HIV in patients, SEP:128
CDC encourages in hospital patients for HIV, NOV:159
CDC guidelines may push mandatory for HIV, SEP:121

Transfusion
liability for failing to warn patients of HIV risk, MAR:34

Tuberculosis
CDC guidelines to prevent nosocomial transmission, OCT:143
CDC stresses control measures after outbreaks of, OCT:137
employee survey form to identify, OCT:145
hospital policies to prevent vary, OCT:144
resistant strains infect patients, staff, OCT:141

Unions
in health care urge CDC to make workplace safer, APR:50
welcome Senate deadline on OSHA standard, NOV:155

Universal precautions
needlesticks, excessive gloving undermine, MAR:29
nosocomial infections reduced by implementing, AUG:118

Visitor policies
checklist for siblings, MAY:63
children particularly important in, MAY:61
